

Full agenda for LGD of Alexander

by Dess Trudell

The meeting of the LGD of Alexander, held July 22, had a full agenda that dealt with a large number of matters; with the earliest part of the day given to in camera sessions, as well as later in the evening.

Councillor Eisler reported on the concerns of Ward 1, one being construction of an outbuilding.

The reeve interjected here on the possibility of these and other future buildings being too close to existing buildings, perhaps creating overcrowding. She questioned if a fire truck could reach them, should one ever be needed. Assured this was not a problem, the application for variation was allowed.

Councillor Grewinski reported on the disreputable condition of

the fence and area around the Coca Cola Falls garbage pit. A resolution to authorize repairs was given for: removal of the fence and the rebuilding of a new one; excavation and the making of ground improvements. Work is to begin immediately in this area. As well, Public Works will begin the necessary repairs in Great Falls nuisance grounds, and acquisition of crown land for same is to proceed.

The question of rats came up for discussion. "Rats have become a problem all over the province, not isolated to towns and villages," said Resident Administrator Roger Bouvier. "We have quantities of rat poison here for anyone who wishes to attend to the rats on their own property. It's been advertised, and it's

Bicycle path petition presented to minister

by Dess Trudell

The petition circulating in our three communities, Pine Falls, Powerview and St. Georges, proposing a bicycle path along Highway No. 11 connecting these communities, was delivered personally to the Minister of Highways, Mr. John Plohman on July 23, 1986 at the legislative building.

The petition, with over 1000 signatures, was delivered by three concerned residents of this area. Also present was the director of construction, Mr. Doug Struthers.

All pertinent information regarding our highways in the province of Manitoba was at their fingertips, and upon looking up their records pertaining to our area, they found the daily automobile count very high warranting some consideration of possible upgrading to our highway. The automobile count, on some twenty-four hour periods, was as high as 4000 vehicles, according to his records between the three communities.

The minister was very receptive to the concerns of the

residents of these communities regarding safety for cyclists, especially children. Mr. Plohman informed them that the earliest possible period for construction on this highway would be no sooner than 1987 to 1988, due to looking into land acquisition for the widening of the present shoulders.

After persuasive discussion on the urgent need for a bicycle path before that time, the minister promised to have it looked at very soon to see what can be done, with the possibility of constructing a temporary path as early as this year.

Mr. Plohman could not ignore the reason for the petition as presented, which included the supporting letters of our administrations, businesses, organizations and individuals. Replies will be sent to these letters by the minister within the next two to four weeks. As a result of this meeting all interested petitioners and fitness enthusiasts, young and old alike, can look forward to safer and better cycling conditions.

Identical cheques were presented for local causes by the Knights of Columbus, left to right: representing the Pine Falls Personal Care Home, chairman Mr. Dick Willett accepting from Deputy Grand Knight Ron Pachkowsky; Fellow Knight Frank Hawronick presenting director of Powerview Athletic Association Liz Boiteau with cheques for \$1309.00 each — proceeds from the walk-a-thon.

VOLUME NO. 1 ISSUE NO. 45

.35c

WEDNESDAY, JULY 30, 1986

This Silver Pine aircraft, along with a few others, was taken out of service on Saturday.

MOT suspends Silver Pine Air Service operation

by Dess Trudell

In an interview with Art Gaffray, president of Silver Pine Air Service, it was learned that Ministry of Transport has suspended their operating certificate as of July 26, 1986.

They are a small company operating bush planes since 1961, employs ten, and operates with seven aircrafts. In the winter one single Otter is used hauling groceries, fuel and an occasional passenger from their base in Pine Falls to isolated settlements of Little Grand Rapids and Pau-

gassi, 100 or more miles north. In spring their flights increase due to the fly-in fishing, in the fall they transport wild rice from remote lakes to their processing plants. This company takes pride in their record of no fatalities or injuries, and continued safe service.

As Mr. Gaffray so eloquently put it, "The M.O.T. approach is to put a net over cargo to contain it in the event of a crash. Our approach is to prevent a crash in the first place. Common sense no longer prevails — we must comply with the same regulations that apply to large sophisticated airlines. There's a big difference between bush

plane operations and major airlines. We operate five types of aircraft and our pilots are qualified on several or all types, and have in the range of 10,000 hours experience. Compare this with a pilot of a large airline who would normally operate one type only. It seems that an inspector can intimidate, harass, and have the power to close down an operation with the stroke of a pen. Many charter operators are vulnerable in that even a temporary stop in their cash flow can force them into bankruptcy."

When asked if they would consider legal action, Mr. Gaffray said, "It would seem futile to contradict the word of an inspec-

Knight's walk-a-thon raises funds for community

by Dess Trudell

The Pine Falls Knights of Columbus Council No. 4244 walk-a-thon was a tremendous success. It was held May 3, and was organized by K of C recording secretary Frank Hawronick, with 12 Knights participating. There were three people from the LGD "just along for the walk."

They all started out from St. Theresa's Parish and walked to Art Kembal's in St. Georges, then back to Pine Falls. Everyone had a good time, with the proceeds going towards local projects — Pine Falls Personal Care Home and Powerview

Athletic Association.

Deputy Grand Knight Ron Pachkowsky presented a cheque for \$1309.00 to Mr. Dick Willett, chairman of the Hospital board, which will be deposited in the Personal Care Home fund.

Knight Frank Hawronick presented a cheque for \$1309.00 to Director Liz Boiteau which will be put towards the artificial ice fund of the Powerview Arena.

The benefits of these donations will be far reaching, and are certainly appreciated. Special thanks for the Knights' efforts and generous contributions.

Brownies and Girl Guides — Every Thursday, United Church Hall, Pine Falls.

St. Georges Sand Bag League — Every Thursday, 7:30 p.m., St. Georges Church basement.

Great Falls Women's Institute — Every first Thursday of the month, 7:30 p.m., Great Falls Hall.

can't overlook."

This reporter put in a call to the Air Services Board of M.O.T. and spoke to Mr. Dick Keith, who was all too familiar with the Silver Pine situation. When asked what regulations were broken, he said, "Several. A passenger wasn't wearing a seat belt, insecure loads, an operation's manager must be on the job at all times, observing safety requirements, checking weights." The list goes on and one. He also said they could have their certificate back if they chose, simply by complying with the regulations.

In Mr. Gaffray's opinion, "Growing government bureaucracy is strangling the private sector; the productive part of the economy. A proliferation of rules and regulations, licenses, permits, inspectors, supervisors and enforcers, is like a cancer on the economy."

"Expansion in the workforce is in the supervisory area; creating more paper to stuff more files, to hinder the worker at the bottom of the heap."

"It seems ridiculous that governments run billion dollar deficits, yet continually increase the size of this non-productive bureaucracy. In our case, they easily justify their existence by shouting, 'In the interest of public safety' and who can argue against that?"

"We have reached the point where we can no longer continue under the present circumstances. Unless there is a serious change in rules and enforcement procedures, we will be unable to remain in business."

After speaking with individuals in this area, the general feeling was that once, when the government got into the private

The action-packed outdoor activities of summer make clothes prone to summer stains. Most summer clothes are washables, therefore, this article will be concerned only with stain removal on washable fabrics.

The action-packed outdoor activities of summer make clothes prone to summer stains. Most summer clothes are washables, therefore, this article will be concerned only with stain removal on washable fabrics. Check the care labels if you are unsure if a particular garment is washable. Don't let the garment sit in the laundry bag for a few days; treat the stain promptly as aging may cause it to become permanently set.

Stain removal guides classify stains as three types: greasy, non-greasy, and combination (unknown).
1. **Non-greasy stains** from cat-supp, mustard, fruit juices, soft drinks, coffee or tea without cream, etc. should be sponged with cool/cold water and soaked for one-half hour if necessary. (avoid hot water as it will set certain non-greasy stains). Then, rub the stain with concentrated detergent, either the liquid form or the power made into a paste. Rubbing the fabric between the thumbs is best because it bends the yarns and loosens the stain between them as opposed to just rubbing the fabric surface. Let stand for awhile before rinsing. If the stain is still present, try an "oxygen" bleach, e.g. Javex Bleach for the Unbleachables. It is safe for colored washable fabrics. Complete the procedure for laundering.

If grass stains persist with this method, sponge with rubbing alcohol if safe for the fabric.

Fruit and berry stains should be sponged with cool water immediately, and soaked in an enzyme-product such as Bio-Ad before laundering. If the stain remains, bleach with an appropriate product and rinse well.

2. **Greasy stains** from e.g. butter or grease should be prewashed first, and then rubbed with concentrated liquid or paste detergent. Let stand, and then rinse well with warm water. If the stain is stubborn, sponge with a grease solvent (dry cleaning solvent). Test it first on a seam allowance or hem. Sponging from the centre to edge of the stain will help prevent ring formation. Keep the treated area small, and keep switching to a clean portion of the sponging cloth. Launder again, using a chlorine or peroxygen bleach if necessary.

3. **Combination or unknown stains** include coffee and tea with cream, cream, ice cream, milkshakes, mayonnaise, salad dressing, etc. Treat first as a non-greasy stain using concentrated detergent, and if the stain is not removed after laundering, treat as a greasy stain. Sponge with a grease solvent and launder again. Use this technique if at all in doubt about the type of stain. Perspiration stains may present a special problem. Nothing can be done if color has been removed from the fabric. If the color is only changed, restore it by applying ammonia to fresh stains, or vinegar to old stains, and rinsing with water. For yellow stains on white fabric caused by perspiration or deodorant, wash in warm suds, and if the stain remains, use a bleach suitable for the fabric. Treat odor by sponging with a colorless mouthwash.

More detailed information is contained in the booklet, *Remove Those Spots and Stains*, available by calling 268-1411 or writing Manitoba Agriculture, Box 50, 20 First Street S., Beausejour R0E 0C0.

fly business, they found it too costly, so they offered it back to the private sector. Now, when the private operators start to sink, under the morass of paper work, nit-picking and regulations — big brother will undoubtedly come along and hand the bankrupt businesses to their professionals again. If they can get away with it — what's to stop them from starting in on the private individual?

Meanwhile, a very much needed service has been closed down. They could be back in business very soon, if they comply with every regulation to the letter; and knowing of continued surveillance follow every rule and when confronted be ready, willing and able to stop operations so a crawling inspection may be put into play; regardless of inconveniences.

One of the regulations that must be complied with is: every passenger must be supplied with an inflatable life jacket. The regular CSA approved are no longer accepted. Inflation is by means of bottled gas. The irony is: regular airlines won't ship these bottles because it is unsafe to do so. To add to this, the jackets are difficult to put on quickly and impossible to put on in the water. They're easily damaged and very expensive to replace, as they require certification yearly.

It reassures the passenger to know that a system of regulations on aviation safety is constantly controlling the operations of a company, but surely the time when a complete overhaul of the system as it applies to separate air carriers, has come. No one argues with reasonable regulations, and certainly not the Silver Pine company. Perhaps there is a light at the end of the tunnel. In time, inspectors and regulations could become redundant.

4-P FESTIVAL Trapshoot

Highway No. 11 across from Leonard Rupert ball diamond
Every Wednesday from July 30 to August 20
(4 nights), 6:30 p.m.

- Shooter supplies his own shells.
- Clay pigeons will be supplied.
- \$10.00 to enter contest — payable when you enter, paid only once for the whole month
- \$5.00 for every 25 pigeons for those entered in contest.
- \$7.00 for every 25 pigeons for those who do not wish to enter contest.
- Your 2 best rounds of 25 pigeons over the whole month will qualify for either of the 3 categories.

Top 10 shooters will qualify for a power saw shoot-off.
Next 10 shooters will qualify for a portable stereo shoot-off.
Next 10 shooters will qualify for a fishing rod and reel shoot-off.
Final shoot-off round will be on Wednesday, August 27, 6:30 p.m.

Youth in the Arts offers two workshops

Next week, Youth in the Arts features two workshops — a one-day woodcarving workshop August 6; and a two-day soft sculpture workshop on August 7 and 8.

The woodcarving workshop at Powerview School will be conducted by some members of the Adanac Woodcarvers, a group in the city. They have work exhibited and sold in Winnipeg. They recently had an exhibition

at the Manitoba Crafts Guild.

The soft sculpture workshop at the St. Georges Community Club will be conducted by Jean McMurray. This year's project will be puppets made with wooden spoons. For those who like to sew, this is ideal.

Adults who would like to participate are more than welcome to register for workshops.

For more information call the Arts Council office at 367-8785.

Instructor Lois Loewen oversees the soldering of Jan Asmundson's stained glass with Tom Paukovic piecing his together.

Stained glass workshop

A stained glass workshop was held July 22, 23 and 24 at the St. Georges Community Club. The workshop, which was held as part of the "Youth of the Arts" program was limited to a few fortunate participants due to the great amount of time required to complete the project.

Completing such a project firstly requires some practise in cutting the glass. Once this is mastered, a pattern is traced and each piece of glass is cut. Then the grinding machine is used to smooth the edges and give the separate pieces a closer fit. Once this is all done, each piece must be foiled and soldered together. The kids spent approximately 16 hours completing these works of art.

Proud artists of this workshop were: Jan Asmundson, Michael and Kevin Omen, Trisha and Jolene Dube, Michelle Duff, Vahid Bossi and Tommy Paukovic. Under the skilled guidance of Lois Loewen, an expert in the field, the participants made beautiful pictures with few minor cuts.

Trisha Dube is seriously engrossed with her stained glass piece, part of a classroom workshop with MRAC Youth in the Arts program.

The book nook

by Heather Ogg

Hi, everyone! I'm Heather Ogg — this year's Library Allard summer student. This is my fourth official week at work and I've learned a wide variety of tasks from filing catalogue cards to covering the hard-cover books. I've typed out cards for French and English adult paperback books and also learned how to fill out Inter-Library loan forms. If you're interested in reading a book that's not available at the library, we will try to obtain it for you through other libraries within the province.

The display for this week is cookbooks. We have a wide selection of cookbooks — Indian cooking, vegetarian cooking, cooking with cheese, all-time favorite barbecue cooking and cooking with fruit and preserving. "The Creative International Cookbook" by Charlotte Turgeon and "Popular French Cookery" by Mary Berry are just a few titles to wet your appetite.

Sincerely,
Mariam Frayne
concerned citizen

With the recent cloud bursts we've been having, I thought of this little poem:

Clouds

A cloud hangs like cotton
On a blue sky

Like a scoop of vanilla ice cream
On a blueberry pie
Like a marshmallow toasting
On a campfire flame
A cloud...
Is it's name

UM The University of Manitoba
Teleconference/Off-Campus Programs

Want to take a university credit course this fall? Take it from us!

The Teleconference/Off-Campus Program for 1986-87 includes 15 full credit course equivalents by teleconference to 30 sites throughout Manitoba (including some sites in Winnipeg), and three off-campus courses taught by university faculty at off-campus locations in Winnipeg.

Courses cover a variety of subjects and levels.
Classes begin the first week of September, 1986.
Advance registration for these courses may be completed up to August 15, 1986.

To receive more information and registration material, contact:
Teleconference/Off-Campus Program, 519 University Centre, University of Manitoba, Winnipeg, Manitoba R3T 2N2; telephone 474-8051 or toll free 1-800-432-1986.

Watch your local newspaper for more details in late August!

Last chance...

EASTMAN SUMMER GAMES

Registration deadline extended to August 8.

ASSEMBLY AREA: Legion Hall parking lot in Pine Falls
TIME: 12:00 noon, Sunday, August 31
PARADE STARTS: 12:30

Come out and enjoy the parade and events!

Newfoundland bound

Two local men, Todd Kemball, who plays with Steinbach Scouts and his brother Kyle, who pitched for Sir John Franklin, will be travelling to St. John, Newfoundland in August. The Steinbach Scouts earned the right to represent Manitoba in the Canadian men's junior fastball championships, and Kyle was also chosen to play on the team. Both men are well known in the Pine Falls and Powerview area, particularly as sportsmen.

Their parents will be flying out to watch the event in August, and do some vacationing as well.

Brothers Kyle and Todd Kemball will be with the Steinbach Scouts baseball team, representing Manitoba at the Canadian men's junior fastball games in Newfoundland.

Pine Falls local news

Recovering in hospital is Hector Dupont, who has spent three long weeks, getting back on his feet. Visitors can now be admitted for short periods of time. We're all wishing you well Hector.

Construction of the new Pine Falls Hospital is coming along on schedule. More details to follow in coming issues.

RECREATION NEWS and VIEWS

Now that my "garden" is recognizable as a "garden", it is producing vegetables so fast I can't keep up with them. I've got beans, like Jack in the Beanstalk, beets to beat-the-band and eighteen different varieties of lettuce. It is amazing what a little water and a lot of sun will do, those suckers really grow quickly.

Now, if only I could teach my dog (A.K.A. Marmaduke) to pull weeds, I wouldn't feel so bad when she goes ripping through my garden in search of something to roll in. (Usually, whatever she rolls in smells pretty bad).

On with the news!

Playground news

The second playground session in Pine Falls is over and the third session has just started in Powerview.

Registration for Powerview was very successful, therefore we have changed the age levels and sessions they attend. Normally, ages four to eight would attend the afternoon sessions, but because of a large number of children in the morning session we asked that all eight year olds attend the afternoon session.

The Great Falls playground session begins August 11 and we are hoping to have as many participants as possible, but in the event we do not have ten either in the morning session or afternoon sessions we will combine morning and afternoon sessions into one afternoon session. Should this happen, we would offer an additional two week morning session in St. Georges. This extra session would run August 11-22 in the mornings on-

by **Peggy Boyle**
367-2533

ly at the St. Georges Community Club. The cost would be \$7.00 per child. All age groups are welcome! Registration for this would take place the first day (August 11).

Young Canada T.V. — video workshop

Eight more participants are needed to fill the workshop. If there are any people aged 13-16 interested in learning how to produce a video, the principles of lighting, script development, storyboarding and editing, contact the recreation office before Friday, August 1. The cost for the workshop — \$15.00 per child. It is being held Thursday, August 21, Friday, August 23 and Saturday, August 23. Times and places for the workshop will be announced once registration is complete.

Swim meet is coming up soon! Saturday, August 16 first splash in the pool at 10:00 a.m. Volunteers are needed to be timers, etc. Please help. Come out and send some swimmers to the Eastman Summer Games! See you next week!

Confusion reigns in Torydom, We'll be watching Bambi re-runs

Pork and porn. This may sound like a strange combo, but there's an important connection. It's called the law.

I think of this when I read still more stories about the pork packers in Alberta. Perhaps only twice before in prairie history, in the Winnipeg General Strike, and with miners vs. RCMP at Bienfait, have we had such open hostility. What happens when the law loses its authority is called anarchy. We all suffer when the mob rules.

While the laws in Alberta are being openly violated, Ottawa is doing one of the dumbest things possible; offering us one that won't work. I'm talking about the proposed legislation on pornography.

Part of this new proposal is just as safe as churches; only a real sickie will object that he or she is being denied kiddie porn.

But other parts are without definition. When you are threatened with five years in the pokey for importing, distributing, making, or selling anything that depicts a whole range of activities, "or other sexual activity," then you are in grave danger.

Boy meets girl. Boy likes girl. Girl likes boy. Hand-holding ensues. Sexual activity? You bet. Five years. Take the prisoner away.

Just read the weekly press and you'll soon learn that the authors of the new law-in-the-making are separated from the Real World. Small-town inns now titillate their audiences with strippers, male or female, take your pick. Girl and boy in bed is fairly standard fare on TV, plus the movies. Some of the stuff shown nightly on the cables is best described as sexual gymnastics. I'm not asking you to like it or watch it; just agree with me that these things exist, and aren't going to go away.

Another repeating story from the weeklies has to do with opposition to porn. Most of it is led by members of the clergy. Many of their recommendations have to do with tinkering, that is, making sure that no skin magazines are on display within five feet of the floor that sort of thing. Many supporters of opposition movements are opposed to something they can't define.

What we don't need are laws that are not realistic, which is the only way I can describe the new proposal. While Mr. Crosbie introduced it, he's been succeeded by Saskatchewan's Ray Hnatyshyn, and perhaps this prairie MP will bring some senses to this subject.

I'm with the Neepawa Press on this one. This paper says if the Crosbie proposal becomes law, then there will be sharp reductions in what you can see at the movies. To meet the requirements of this legislation, all they'll be offering is re-runs of

THE WINNIPEG RIVER REVIEW, WEDNESDAY, JULY 30, 1986 7

ENERGY CORNER Defrosting your freezer

prepared by Manitoba Hydro

It's hard to believe, but soon some of the vegetables from your garden will be ready for harvesting and freezing. That's why now is a good time to defrost your freezer.

All freezers should be cleaned and defrosted once a year, and it's a very simple process.

First, unplug the unit, whether it's a frost-free model or a manual defrost model. The reason for doing this is safety. When you're working with water, you don't want to take a chance on getting a shock. So be sure to unplug the unit before you do anything else.

Next, remove the packages from the freezer and wrap each one in several layers of newspaper, and cover them all with a heavy blanket. This will help to keep the food frozen while you defrost and clean the freezer.

With manual defrost models, place newspapers or towels on the floor of the freezer to catch the chunks of frost as they fall off the sides.

To hasten the process, you can use a plastic scraper to dislodge

the ice. Also pans of hot water can be used to speed up thawing. Never use a metal scraper or electrical device to remove the ice.

When the unit is defrosted completely, wash the interior with lukewarm water and baking soda. Then you simply rinse the freezer and wipe it dry.

The package can be returned to the freezer when it cools to -18° Celsius.

With your freezer cleaned and defrosted, you'll be ready to freeze the vegetables and fruits your family enjoys so much through the fall and winter months. For your free Home

Freezing Guide contact your local Manitoba Hydro home economist, Lynda McCullough, 177 Main Street, Selkirk, Manitoba R1A 1R5.

LGD of Alexander council minutes

Minutes of a regular meeting of council of the Local Government District of Alexander held on July 2, 1986 at 2:00 p.m. in the council chambers of the district.

Present: Reeve Fran Thompson; Councillors Bill Eisler - Ward 1, Nick Roman - Ward II, Peter Raymond - Ward III, Mary Ann Grewinski - Ward IV (arrived at 2:40 p.m.); Resident Administrator R. Bouvier.

Others present: Dess Trudel, *Winnipeg River Review*; Jean Paul Caya, Public Works foreman; Kevin Duff, raterpayer; Councillors Ken Thomas and Bob Andrews, RM of St. Clements; Reeve Victor Walko, RM of St. Clements; Don Cunningham, applicant; Randy Schile, observer; and Jerry Jones, observer.

READING AND CONFIRMATION OF MINUTES

Resolution No. 288A/86: Raymond - Roman RESOLVED that the minutes of the last regular meeting of July 8, 1986 be adopted as circulated. Carried.

REPORTS OF STANDING COMMITTEES

Ward I — Councillor Eisler reports on a meeting with members of the Traverse Bay Raterpayer's Association on July 22, 1986 be adopted as circulated. Carried.

Ward III — Councillor Raymond reported on his inspection of the drainage work done along Lamoureux Lane.

HEARING DELEGATIONS

J.P. Caya presented a verbal report to council.

Kevin Duff met with council to discuss the installation of a 42" x 30' culvert on his farmland. Mr. Duff was advised that the culvert was required on private lands and council was not authorized to do such work.

Council met with three representatives of the RM of St. Clements (in camera) to discuss policing matters for Ward I. (See Resolution No. 300/86). Don Cunningham was interviewed for the position of police constable.

ACCOUNTS

Resolution No. 290A/86: Grewinski - Raymond RESOLVED that the month end statement to June 30, 1986 be adopted as presented. Carried.

Resolution No. 291A/86: Raymond - Eisler RESOLVED that the following accounts be approved for payment:

N.A. Vincent Construction - clean Great Falls and St. Georges dumps, \$179.70; Gulf - truck fuel, \$159.55; Geico Express - freight, \$9.14; Art Lavoie Trucking - gravel boundary of St. Clements, \$123.62; Jay-Em Hauling - gravel boundary of St. Clements, \$120.33; Yves Normandin - gravel boundary of St. Clements, \$86.87; Yves Normandin - chips - Annette Street paving, \$771.06; Tony Chapel - water tank, \$150.00; Peter Raymond, expenses for June, \$37.00; Fran Thompson - expenses for June, \$373.23. Carried.

Councillor Grewinski absented herself from the council chambers during the discussion of and voting on Resolution No. 291A/86.

Resolution No. 292A/86: Roman - Eisler RESOLVED that Cheques No. 347 to 388 for the total amount of \$33,601.13 be approved as presented. Carried.

BY-LAWS
Resolutions No. 293A/86 - No. 296A/86: Suspends the requirements under Section 183(2) of the Municipal Act and provides three readings to By-Law No. 810 (rescinding By-Law No. 555). Carried.

Resolutions No. 297A/86 - No. 300/86: Suspends the requirements under Section 183(2) of the Municipal Act and provides three readings to By-Law No. 812 (appointment of Constables Neinhuis and Cunningham). Carried.

Resolution No. 301/86: Grewinski - Raymond RESOLVED that By-Law No. 811 be read a first time (road closing - Anderson). Carried.

UNFINISHED BUSINESS
Resolution No. 302/86: Raymond - Roman RESOLVED that the tender for the exterior painting of the Municipal Office from Yves Boisjoli for the amount of \$775.00 be accepted. Carried.

Resolution No. 303/86: Grewinski - Roman RESOLVED that the request made by Mr. and Mrs. Bacler in the Maryk Trailer Park (new development) for the location of a larger mobile home be allowed. Carried.

GENERAL BUSINESS
Resolution No. 289A/86: Raymond - Roman RESOLVED that the council of the Local Government District of Alexander support the petition by

local residents of the communities of Pine Falls, Powerview and St. Georges to the Minister of Highways requesting paving of the shoulders along PTH No. 11 from St. Georges to Pine Falls for the purpose of a foot and bicycle path. Carried.

Resolution No. 304/86: Raymond - Roman RESOLVED that the proposal to subdivide by Melvin Vincent on Pct. 3, Plan 7738 consisting of 1 lot be rejected. Carried.

Resolution No. 305/86: Raymond - Roman RESOLVED that the August council meeting be held on August 26, 1986 at 10:00 a.m.

Resolution No. 306/86: Grewinski - Eisler RESOLVED that the requirement for a development agreement in the proposal to subdivide by Fred Haverlock on Pt. Lot 4-3-15122 be waived at this time. Carried.

Resolution No. 307/86: Roman - Eisler RESOLVED that Public Works be authorized to purchase one only spare tire for the 1973 GMC 3 ton truck. Carried.

Resolution No. 308/86: Eisler - Roman RESOLVED that Public Works be authorized to apply a second application of dust control treatment on the Hillside Road. Carried.

New family life optional unit introduced

Education Minister Jerry Storie has released the new family life educational optional unit for students in Grades 5, 7 and 9.

"The family life unit encourages students to develop skills and attitudes which contribute to healthy relationships and successful family life," said Mr. Storie. "The aim of the unit is to improve the quality of individual and family life."

"School boards now have this unit available to incorporate into local school programs," he pointed out. "School divisions are free to select lessons or adapt the instructional materials to reflect the needs and values of their community. Parents must be notified by the local school before a child begins receiving instruction in family life education. Parents retain the right to withdraw their children from all or any part of family life instruction."

Manitoba Education will assist school divisions in developing in-service sessions and workshops using health professionals to ensure that appropriate training is available for instructors.

Curriculum materials will be distributed to all school divisions in early August. Parents can arrange to review this material by contracting their school division. Copies of the curriculum guide may be purchased from the Manitoba Textbook Bureau, 277 Hutchings Street, Winnipeg R2X 2R4. Copies of the Parents' Guide will soon be available from school divisions and from Manitoba Education, Communications Branch, 116-1200 Portage Avenue, Winnipeg R3G 0T5.

To ensure that the content of the unit is appropriate for the maturity level of students aged 10 to 15."

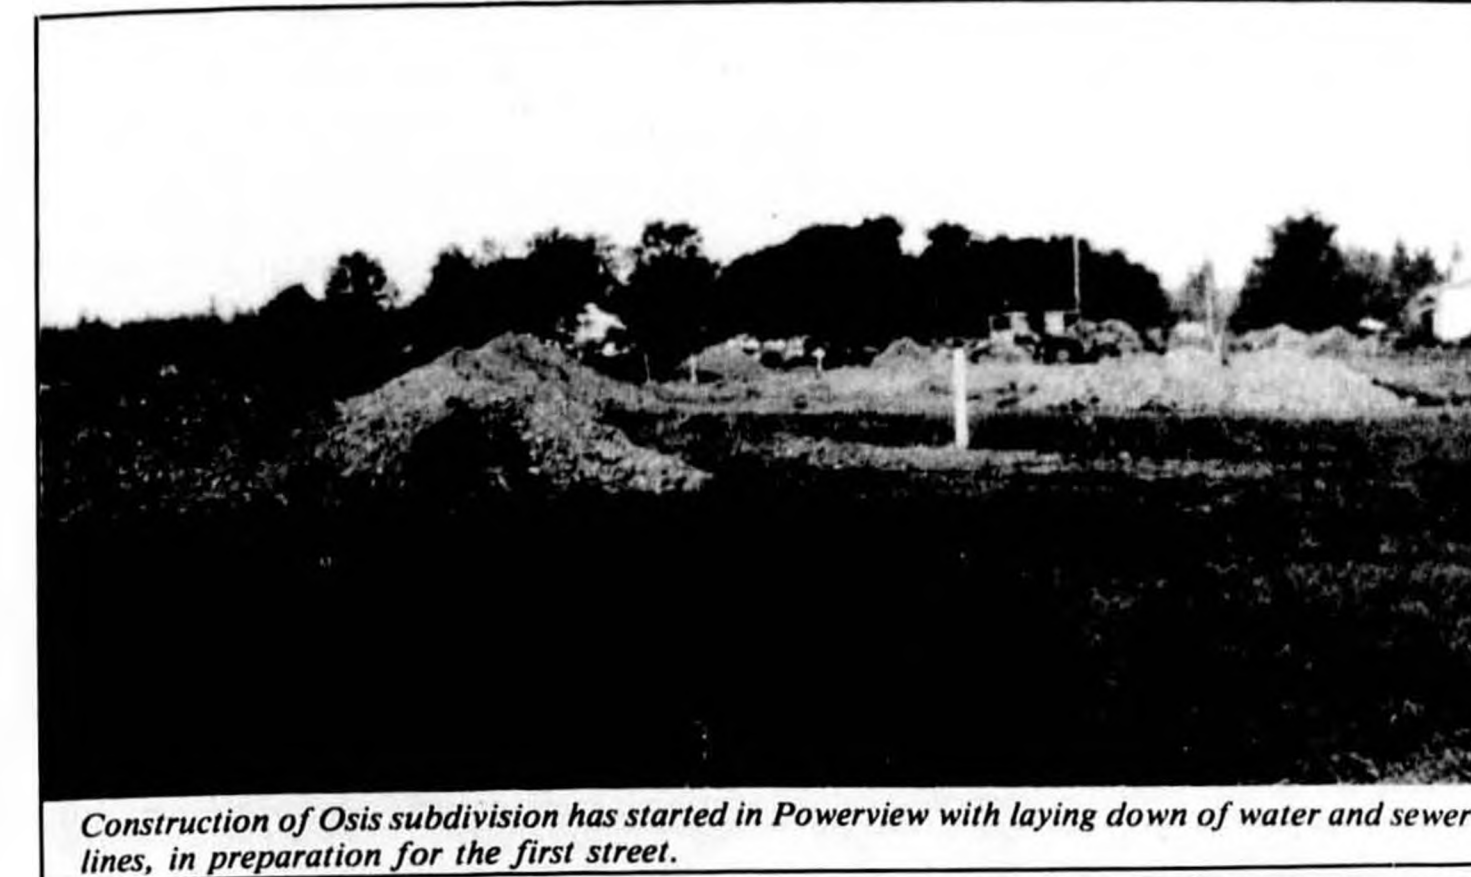

Five topics are covered at each of the three grade levels. They are: the importance of family; human growth and development; relationships and responsibilities; prevention of sexual abuse; and positive lifestyle practices.

Report from the legislature

Province proposes farm aid bill

by Clarence Baker

MLA for Lac du Bonnet

Farmers right across western Canada are facing severe financial difficulty. Previously, this was felt to be temporary; but high interest rates, poor crops in some areas, weak commodity prices and adverse weather have resulted in further deterioration of the situation.

The financial crisis facing our farm community is of concern to all Manitobans. Thousands of jobs throughout the province depend directly and indirectly on the strength of our agricultural sector.

Clarence Baker
MLA for Lac du Bonnet

Debate on the provincial government's farm aid package is currently under way in the Manitoba legislature. I expect the bill will be passed by September and proclaimed into law soon after.

The farm aid bill is one of the most important pieces of legislation we will be asked to consider during the current session.

Most Manitobans agree on the need to support our farmers in these difficult times. I believe it is significant that urban as well as rural residents share this view.

The Family Farm Protection Act introduced by Agriculture Minister Bill Uruski is intended to strengthen the powers of existing panels which provide financial counselling to farmers. It will also provide for a central mediation board and the courts to review impending farm foreclosures and recommend possible alternatives.

The bill will also give the

YOUR LOCAL CLASSIFIED ADS
The first place to shop

government of Manitoba the authority to declare a moratorium on repossession of farmers' essential assets during crisis periods.

This pioneering legislation is aimed at helping to improve communication between creditors and farm debtors. The government recognizes the need to catch debt problems at an early stage before a full-blown financial crisis develops. It is preferable for both sides to work together to preserve family farms and put them on a sound financial base for the future.

If circumstances do reach a crisis point, the province wants to ensure that individual farmers receive fair and consistent treatment from lenders.

As part of the farm aid program, the Minister of Finance, Eugene Kostyra, has announced establishment of a \$6.5 million fund to help relieve the debt burden of certain producers who have demonstrated good production and management skills.

I am confident that this legislation will provide effective and meaningful support of our farm community. Certainly, no one pretends that these measures alone will solve all the problems, and Manitoba will continue to press the federal government for national action to address the crisis in agriculture.

In the meantime, I as your MLA will continue to work with others in the provincial government to help preserve the strong rural communities and healthy family farms that are so important to us all.

Card of Thanks

We wish to express our sincere thanks to our friends, neighbors and relatives who helped us through our time of sorrow in the loss of our beloved husband, father, and grandfather, Sylvio. Thank you for the donations of food, flowers, cards, donations to the personal care home, and friendly visits. The donations for the personal care home will be going towards a piano.

Thank you to Father Belanger, the pallbearers and the choir. Special thanks to the Dufour family for all their help. Your thoughtfulness and kindness was appreciated.

Migratory game bird season is unchanged

Season dates and bag limits for the 1986 waterfowl season will remain unchanged from last year.

Natural Resources Minister Leonard Harapiak made the announcement, adding that "since the 1985 regulations achieved more than the desired harvest reduction of 25 percent on mallards, the 1986 regulations will not change."

Because the continental breeding population of mallards this past spring is still below the fall-safe breeding population levels, all jurisdictions are expected again to maintain restrictive regulations to achieve a 25 percent harvest reduction on this species.

Season dates for the four waterfowl hunting zones will be:

Zone 1, in northern Manitoba, opens September 1 for residents and non-residents of Canada; Zone 2, in The Pas area, opens September 8 for residents and September 15 for non-residents of Canada; Zone 3 and Zone 4 again will open concurrently September 22 for residents and September 29 for non-residents of Canada. Morning-only duck hunting for non-residents of Canada will continue in Zone 4 excluding game hunting area 36 until October 17.

Mr. Harapiak said the duck daily bag and possession limits will remain at six daily and 12 possession for residents and five daily and 10 possession for non-residents of Canada. Of this total daily limit, only two daily may be mallards and only two daily may be canvasbacks or redheads or a combination of the two species. These restrictions will apply to both residents and non-residents

of Canada from their respective opening dates up to and including October 17. After this date, hunters are allowed a total bag limit of six ducks (residents) and five ducks (non-residents of Canada).

Resident bag limits for geese will remain at eight daily and 16 possession (maximum 10 Canadas). Non-Canadian geese limit is five daily and 15 possession (maximum 10 Canadas).

Morning-only goose hunting also will continue in provincial game hunting areas 13A, 14, 18, 18A, 19, 19A, 19B, 21A, 23A and 25 and all waterfowl Zone 4 from the opening dates up to and including Friday, October 17. The minister noted that this is a change from the previous year when the morning-only regulation also included the Saturday.

The minister also announced that in 1986, the season for sandhill cranes will be expanded to include all areas in waterfowl Zones 3 and 4. This season is open only to residents of Canada between September 1 and September 27. The hunting area was expanded because of crop depredation problems in previous years.

Pine Falls Legion honors members with special 60th jubilee medal

respectfully submitted by the executive Br. No. 64

During the month of June, 1985 the Royal Canadian Legion, formerly the British Empire Service League, began celebrating its 60th year of inception.

Many notable events were planned and brought to fruition to mark the diamond jubilee. Red tulips appeared in gardens throughout the Dominion, special banquets were arranged to honor those who had served in the various areas of hostilities, concerts were given and greatly enjoyed as people appreciated the atmosphere of nostalgia.

To mark the jubilee in a more lasting fashion, Dominion Command caused a special 60th anniversary medal to be struck. Almost all branches across the country sought to mark individual contribution in terms of time and effort made by members to improve the overall status of the legion.

Branch 64 was no exception, it, together with the Ladies Auxiliary, set out to determine who

should be recipients of the medal. It was decided to leave the choice to the membership. For almost three months names were received, and a select board vetted the choice as names were submitted.

It gives us great pleasure to announce the names of those honored by their peers: Cde. Bill MacLeod for his services as pipe major and teacher of the pipes; Cde. Redmond Halpin, acknowledging his long service and guidance; Cde. Pete Richardson for his ceaseless efforts in supervising the Legion Hall and numerous other duties; Cde. M. Ford for her years of service as membership chairman; Cde. A. McGuire for years of dedicated service in a variety of offices and as zone commander; Cde. Fred Welsh for his long time labors and assistance; Cde. G. Hanson who applies his electrical knowledge and tireless energy to ensure the smooth working of the Legion house equipment; Cde. H. Poitras, a

most concerned comrade (she even worked for a whole year without remuneration) donates heavily of her time, energy, talents and her personal resources; Cde. D. Dimock, active immediate past president and present treasurer; Cde. F. Pelletier who for almost a decade has headed the most important branch of the Legion, that of organizing the poppy sales; Cde. J.W. Whitford, present branch president, padre and hospital visitor; Cde. Sharon Mignon, president of the Ladies Auxiliary and ever-willing and enthusiastic helper to the Legion at large.

Those nominated from the lady members of the Auxiliary include: Cde. Ina Berthelette for the many areas of service and dedication; Cde. Edna Fortier for her service and endeavour through a number of channels; Cde. Myrtle MacKie for her readiness and devotion to the Auxiliary; Cde. Margaret Tollison for her sense of duty and long time work and interest.

free. I don't know why people would wait so long to come and get this stuff. We have to help as much as we can, as the commission can't get to every community. We'll be using something a little different in the St. Georges nuisance grounds, cost sharing with the three communities."

Reeve Thompson said, "We have a responsibility to the community to do something about the rat problem, so perhaps we should draw up a by-law to help eradicate the problem. Our concerns will be with the removal of derelict vehicles, sheds, abandoned old buildings, piles of refuse, be it lumber or otherwise, that harbour the rats."

The Clean Environment Commission order regarding the Dufour Lagoon was read. An extension was allowed Mr. Dufour until August 1, 1988. Circumstances allowing for this included a possible subdivision in the near future and a water coop in that area, which Mr. Dufour could tie into, thus eliminating unnecessary expense at the present lagoon. Naturally, he would have to adhere to the regulations pertaining to the present waste lagoon set up by order of the Commissions Office, until that time when he can rectify the situation. It was once acceptable, as it did provide a much needed service for the times. Until then, council tabled a request by Melvin Vincent to subdivide his property which is too close to the lagoon and will not meet the necessary requirements. Once a larger sewage and waste system is installed in the area, Mr. Vincent could then subdivide his property into one acre lots as he has requested.

In other business discussed, Mr. Yves Boisjoli's tender for painting the exterior of the LGD municipal office was accepted.
